## Summary

---

Computer Engineering student with hands-on experience in MERN stack development through internship work. Developed web applications, worked with APIs, and practiced data structures and algorithms to improve problem-solving skills. Passionate about building practical software solutions and eager to contribute, learn, and grow in a Software Development role.

## Education

---

|                                                    |                            |
|----------------------------------------------------|----------------------------|
| <b>B.E in Computer Engineering</b>                 | 2023 – 2027                |
| • Vishwakarma Government Engineering College (GTU) | CGPA: 8.85 / 10.0          |
| <b>Higher Secondary Certificate (HSC)</b>          | 2022-2023                  |
| • Vivekanand Vidyalaya Higher Secondary School     | 75.69%   GUJCET: 96.75/120 |

## Skills

---

- **Languages:** Java, JavaScript
- **Frontend Development:** HTML, CSS, React.js
- **Backend Development:** Node.js, Express.js, REST APIs
- **Database:** MongoDB, MySQL
- **Deployment & Version Control :** Vercel, Render, Git, GitHub, Postman
- **Soft Skills:** Problem-Solving, Team Collaboration, Adaptability

## Experience

|                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                        |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------|
| <b>MERN Stack Intern   UptoSkills</b>                                                                                                                                                                                                                                                                                                                                                                                                                | March 2026 – June 2026 |
| <ul style="list-style-type: none"><li>• Developed and maintained backend features using Node.js and Express.js, including GitHub integration and email service functionality, while resolving bugs and improving application reliability.</li><li>• Refactored existing code to improve maintainability, removed redundant components, and collaborated with team members as Backend Captain to ensure timely completion of backend tasks.</li></ul> |                        |

## Relevant Academic Projects

---

### MediTrack — Smart Medicine Reminder Web App | [\[Live Link\]](#)

- Built a production-ready MERN stack web application to manage medicines for multiple family members, featuring automated scheduling to track stock levels and send timely dose reminders.
- Integrated Twilio SMS and call APIs for escalating alerts on missed doses, and deployed a scalable architecture on Vercel and Render with cron jobs handling real-time scheduling tasks.

### Thandi News — React News Web App | [\[Live Link\]](#)

- Developed a responsive news aggregation platform using React, Zustand, and Tailwind CSS, featuring category based filtering, keyword search, and paginated article browsing for improved user experience.
- Built a secure Express.js backend proxy to integrate NewsAPI, protecting API keys while enabling efficient news retrieval, search functionality, and seamless deployment on Vercel and Render.

## Achievements and Certifications

---

- Intern Of the Month In April | [\[view certificate\]](#)
- Solved **200+** DSA problems on [LeetCode](#) and **70+** competitive programming problems on [Codeforces](#)  
Max Rating 809
